

Â Quality Inspector-Aerospace Wind Tunnel ModelsÂ

Come join a cutting edge company in a field that is in demand...The world's leading provider of aerospace wind tunnel models, in business for over 45 Years, is seeking a candidate for the Quality Inspection department. While technically an inspection position, the ideal candidate would also possess a strong mechanical background as the position calls for model assembly and the understanding of the manufacturing process. However, recent graduates from the engineering fields or those with high mathematical (particularly Trigonometry and Geometry) and mechanical aptitude are strongly encouraged to apply. A well paid apprenticeship is provided for the right individual/s.

Candidates must possess:

- High School diploma
- Proficiency in mathematics and computers

Preferred skills:

- Experience in Aerospace Quality Inspection
- Experience with Verisurf V9 and X Software
- Experience with PC-DMIS Software and CMM programming
- Experience in Toolmaking-Toolmaker- Jig/Fixture Builder
- In-depth knowledge of coordinate systems
- Mechanical background

This is a great opportunity for any motivated individual to either continue/expand on with their career or to stop working a job and begin using their degree or background for something of substance. This is a medium-sized aerospace company with a strong family theme, so here you'll never be just another number, but someone who is respected and appreciated. All candidates are encouraged to submit their resumes to the Human Resources Dept.

Per US Export/ITAR Restrictions, U.S. citizenship or Permanent Residency required, DOD Clearance desired.

Immediate employment, competitive salary, excellent benefits.
